## ABOUT OUR MASTER ARTISTS

**BONNIE NEWELL JORDAN** has been with the Paris Parker® team for almost seven years and during her time in the salon, she has been passionate about education—from both a learning and a teaching standpoint. She has undergone education with Aveda, Van Michael and Vidal Sassoon. Bonnie specializes in both razor cutting and extensions. She particularly enjoys specialty and bridal work and has been published in *Southern Bride* magazine.

**LAURA GILL** has worked in the beauty industry for more than 20 years, after discovering her talent for great hair at Southeastern Beauty College. Since then, she has trained with such industry greats as Yosh, Van Michael, Vidal Sassoon and Nick Arrojo, while also working on numerous Aveda seasonal trend collections. Laura has been a team leader at Paris Parker® for five years and has also led a lot of education within the salon and acted as a mentor to other stylists and new artists. Laura excels in short hair cuts and updos.

**RAMONA YORK** has an immense love of color—shown by her impressive talent in designing hair. Throughout her 21 years of experience, Ramona has attended numerous advanced hair color training classes with the likes of David Adams, Ian Michael Black and the Van Michael team. She is also adept at using Headmapping®—a unique haircolor system that aids in the exact measurement of product, time and price in any hair color service. Ramona specializes in all hair coloring techniques—whether highlights, all-over color or color melting and baliaige techniques. She has been with the Paris Parker® group for 10 years.

**MALLORY BAIZE** graduated from the Aveda Institute Baton Rouge in 2005 and has been with the Paris Parker® group since then. During her time in the salon, Mallory has taken part in several Aveda Trend Collection trainings, as well as taught a class to her team. Mallory specializes in color formulations, and considers blonde and red her specialties.

**WHITNEY CASSIDY** attended the Aveda Institute Covington and has been with the Paris Parker® team for more than six years. During that time, Whitney has been passionate about furthering her education and has attended education classes from high-profile colorists Jeffrey Scott, Ian Michael Black and DJ Freed. She also attended many Aveda Master Jam educational events and has worked on conducting her own training within the salon. Whitney excels in all color techniques and formulations and especially enjoys lightening hair.
